PROCEEDINGS OF THE  
THIRTY-FIRST ANNUAL  
EASTERN SNOW CONFERENCE

FEBRUARY 7, 8, 1974  
OTTAWA, ONTARIO, CANADA

## FOREWORD

In keeping with the objectives of the Eastern Snow Conference "to collect, disseminate and analyze data relating to snow and ice," The Executive Committee of the Conference is pleased to submit this copy of Proceedings, Volume 19, in recognition of the Thirty-First meeting of the Conference.

The Eastern Snow Conference is an informal group of business men, engineers, foresters, scientists and educators from Eastern United States and Canada, which meets annually at some pre-selected location in New England, New York, or Canada. The purpose of these meetings is the interchange of information related to snow, ice, frost, hail, and other phenomena associated with the winter season.

The 1974 meeting was held in Ottawa, Ontario, Canada. In 1975, the group plans to meet in Manchester, New Hampshire, in early February.

Membership in the Conference is open to all interested individuals. For the modest annual dues of five dollars, each member receives one copy of the Proceedings, together with any other data distributed by the Conference. Additional copies of current Proceedings and copies of many of the back issues are available from the Secretary.

Publication of these Proceedings was made possible in part by Corporate Memberships in the Conference held by the following:

Chas. T. Main, Inc., Prudential Center, Boston, Mass. 02199

Hydro Quebec, 75 West Dorchester Blvd., Montreal, Quebec, Canada

Ontario Hydro, 620 University Ave., Toronto, Ontario, Canada

Additional financial assistance from Ontario Hydro, Water Resources Branch, also is sincerely appreciated as a part of making the Conference a success.
